

## Penn-Yan Car Topper

**\$3500**

Originally built in the Finger Lakes, this popular model was designed to be light and narrow enough to fit on top of most cars of that era, and easily lifted by two people. This vintage 1950s motorboat was just restored by our lead shipwright and a team of experienced volunteers in our shop. A new canvas skin was fitted to the boat and coated with epoxy and marine-grade paint, with gunnels refastened. The interior of the boat is varnished and in excellent shape. New brass and bronze hardware, and even a vintage-style decal, will make you the envy of other boaters. This shallow-draft motorboat is now in like-new condition and ready for the water. A motor is not included.

Type: motor

Year: 1950s

Features: restored, roomy, stable

Hull: wood / canvas / epoxy coating

Length: 12'

Beam: 45"

Draft: 15"

Motor: not included

Registration: no

Trailer: no

Title: no
